

## DATA SHEET

### A RANGE OF CUSTOM DESIGNED VACUUM CHAMBERS

Specifically designed to compliment the Meter Mix® range of dispensing machines, our tailor made vacuum chambers enable us to manufacture complete turnkey systems where the evacuation of air from the component either during or following the dispensing operation is an absolute necessity.

#### TYPICAL APPLICATIONS

- Potting or encapsulation of electronic components
- Casting complex components into moulds
- Oil injection
- Mixing and degassing of pre-mix resin materials

#### SYSTEM INTEGRATION

The custom designed vacuum chambers can be interfaced with any metering, mixing or dispensing machine from the Meter Mix® range.

In addition, system integration within the vacuum chamber can include indexing tables, rotary tables or XY units.

Designed and manufactured by Meter Mix® Systems, our Technical Sales staff will be pleased to advise on the most suitable configuration.
